Revenue

We delivered revenue of SAR3.5bn in 3Q24, growth of 1% QoQ as quarterly NIM fell but offset by strong loan growth and supported by robust fee generation, and growth in exchange income

Revenue by business: Quarterly trend SARm

Other Capital markets Treasury WPB CIB

- ◆ Strong volume growth has been instrumental in growing revenues together with non-funds income levers, and more than offsetting the impact of higher funding costs
- ◆ Malleable Balance Sheet that has allowed SAB to benefit from higher rates, but also allowed the Bank to shift its BS construct to one that will be less sensitive when rates fall
- ◆ 9M24 non-funds income grew 20% YoY mainly from trade business, capital markets and faster than market loan origination

NSCI and non-funds revenue

Quarterly NSCI continues to expand as volume growth more than offsets the decline in NIMs; cost-of-funds continue to be pressured by falling NIBs ratio

Key facts and figures¹

1. As at 30 September 2024

Investment case

Five reasons to invest in SAB

1. Leading international bank in the Kingdom

Our institution has developed into the leading international bank in the Kingdom through a deep understanding of the needs of our customers and a bespoke product suite that delivers intrinsic value. Our unique partnership with HSBC Group enables us to bring international connectivity to our customer base and aligns our approach with global best practice. We are the 'go-to' Bank for inbound and outbound multinational corporates and institutions operating into or from Saudi Arabia, and the number one bank in the Kingdom for trade.

2. Increased scale to support Vision 2030 growth aspirations

The Kingdom is navigating its path through undoubtedly its biggest economic transformation programme, bringing a wealth of opportunity to every family and enterprise domestically, but also playing to international opportunities. Through our robust balance sheet and market-leading suite of products, we possess the scale and capability to support such an ambitious programme.

3. Financial strength

Historically, we have delivered top tier financial performance from a strong balance sheet, robust funding and liquidity dynamics, and a solid capital position. Following the merger with Alawwal Bank, we have taken the necessary steps to protect our balance sheet and conservatively manage the provisioning of our portfolio. We are still in a position of strength to meet the demands of our customers.

4. Positioned for growth

We have successfully completed the integration of our two banks, following the merger of SABB with Alawwal Bank, and we have moved swiftly into investment and growth mode. Our Strategy 2025 is growth focused and supported by a drive to digitise the banking platform and customer experience. Our growth agenda aims to build on our strengths in our corporate franchise and provide a more enhanced retail provision to support the growing needs of our retail customers. Our long-term strategy coupled with a core set of finance fundamentals and a robust economy positions us well for growth.

5. We are safe, sustainable and dependable

A robust approach to corporate governance is a key strength for any organisation and we ensure we adopt best practices in this field to create value for all of our Stakeholders. The Board sets the Bank's strategy and risk appetite with the aim of achieving sustainable value and promoting a culture of openness and debate. Our Board brings a successful balance of international banking best practices, together with local, commercial and institutional insight and experience.

We conduct our business using a responsible and sustainable approach in line with our values, and our business decisions are made in the interests of all concerned Stakeholders, including our customers, employees, Shareholders and our wider community.
